The Revo 230V spots are available in four sizes, 8 rotosymmetrical optical variants per model, 3 additional asymmetrical variants for the Medium, Compact, Max models, plus a shaper on Medium. Dedicated to advanced lighting design, the new Revo-Dark optical systems are particularly suitable for settings with high visual comfort. Equipped with high-efficiency rotosymmetrical "cross" and asymmetrical optics, they are particularly suitable for use in museums and projects with complex lighting requirements. The Spot Revo series boasts a marked performance/size ratio, a wide range of accessories and a wide range of finishes, but above all stands out for its precision, cleanliness and uniformity of projection.
