MARONA WL, PHASE
155156
SLV

IP 20

The MARONA ceiling light impresses with its elegant shape and clear contrast between the materials used-steel and acrylic glass. A dimmable 4x3 W LED module provides the desired lighting effect and makes the luminaire ready for direct connection to the 230V mains supply. The deliberately selected generous distance between the lamp shade and the mounting surface creates a corona effect with indirect illumination properties.
