LED RECESSED PANEL AREO VARIFIT IP44 SQUARE MM WHITE 3,000K
93040
PAULMANN

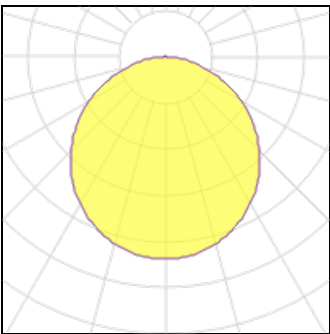

The rectangular Areo recessed panel with a size of 175x175mm and an output of 13 watts in White provides extensive warm white light. Thanks to flexible VariFit technology, the clamping springs can be freely adjusted between 50 and 140 mm for installation. The panel can therefore be installed both in existing boreholes and new ones created with standard drill bits. For hole diameters larger than 85 mm, a cavity depth of at least 30 mm is needed. For hole diameters larger than 68 mm, a depth of at least 55 mm is needed.
