Product data sheet

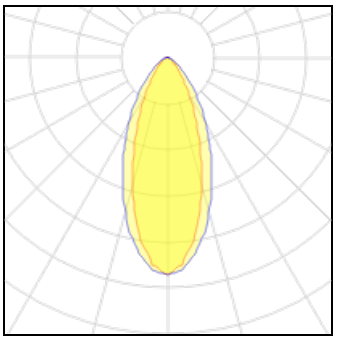

MAXOS FUSION LL612X 1 XLED31S/840 NB LL500X

PHILIPS

Guaranteed performance, thinking ahead Maxos fusion is an adaptable LED trunking system that offers an excellent quality of light while more than halving energy costs compared to fluorescent lamps. For retail applications, a family of linear panels, non-linear modules and a spot portfolio can be smoothly integrated into the track backbone to let your merchandise sparkle and stand out. For industrial applications, the focus is on reducing installation and maintenance cost by using fewer linear panels. With the electrical set-up of up to 13 wires, the freedom to position these fixtures as required and the integration of other services/third-party hardware, the system allows you to reduce ceiling clutter. It can also be easily re-configured to accommodate future lay-out changes. The infrastructure is enabled to integrate sensors for data collection, giving you the opportunity to use insightful granular information to support your business.

Light output 1

1 x LED

Nominal lamp power	21 W	LOR	100%
Lamp flux	2800 lm	Total flux	2787 lm
Luminous efficacy	133 lm/W	Total power	21 W
CCT	4000 K		
CRI	80		

Mounting mode

Ceiling mounted

Shape and measurements

Length: 49.49 in

Width: 2.95 in

Height: 3.11 in

Electric

System power: 21 W
