The Super Flat family has several square and rectangular versions, all of which are made of extruded aluminium and with angle brackets made of injected aluminium. The Super Flat has some especially designed guides, guaranteeing optimal light flow and great visual comfort. Energy losses are minimised with this efficient and innovative lighting system. The entire Super Flat family has been developed in suspended and surface mounted versions for greater product versatility. Thus, the suspended Super Flat is available in general lighting and in general plus accent light lighting via the incorporation of two spots (90x90 version only).
