Product data sheet

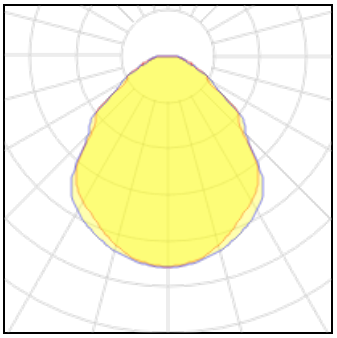

SLIMBLEND RECTANGULAR, SUSPENDED SP402P LED42S/840 OC POE W31L125 SP400P

PHILIPS

SlimBlend Rectangular - High performance, advanced control . Building owners and tenants want office norm-compliant lighting. They also want quality of light, lower energy costs and lower maintenance costs. That's why more and more people are applying 'surface of light' solutions, which provide glare-free, diffused lighting comfort as well as flexibility and clutter-free aesthetics. SlimBlend provides all this and more. It uses the 'trapped' light under the masking to create a subtle glow, with a soft transition to the edge, lowering the brightness perception and blending the light into the ceiling - for an even more comfortable working environment. SlimBlend can also be part of a connected lighting system and integrated into the IT infrastructure enabling data on usage to be collected to help reduce energy costs further. Also, because SlimBlend luminaires are indeed slim, they enable technical equipment to be more easily installed in the plenum. Moreover, it offers a very wide variety of options to ensure all building types can take advantage. These high-end appearance luminaires come in square, rectangular and can be either recessed, surface-mounted or suspended. They also offer a good balance between initial cost and ROI, so everyone can enjoy high quality light combined with distinctive design.

Light output 1

1 x LED

Nominal lamp power	33 W	LOR	100%
Lamp flux	4200 lm	Total flux	4199 lm
Luminous efficacy	127 lm/W	Total power	33 W
CCT	4000 K		
CRI	80		

Mounting mode

Pendant

Shape and measurements

Length: 49.09 in
Width: 12.17 in
Height: 1.97 in

Electric

System power: 33 W
