BLACK FOSTER 3 FLOOD 2700K N
A3173000N
ARKOSLIGHT

Black Foster is the lighting fixture that transfers the applauded "Invisible Black" effect to a linear system. Black Foster is composed of a series of combinable modules enabling the alternation of segments with light emission and without light emission. However, whether it is ON or OFF, this luminaire always keeps the aesthetics of a perfect dark line. To the observer, it is impossible to distinguish between Black Foster parts that emit light from those that don't. Black Foster's modularity provides a wide range of different combinations, allowing to set up the light emission location as many times as needed, and adapting itself to the requirements of each project in particular. *** NOTE: Recommended for installations where the profile can be installed before the false plasterboard ceiling (thickness 12,5 mm).

Light output 1

1 x LED			
Nominal lamp power	6.3 W	LOR	92%
Lamp flux	570 lm	Total flux	524 lm
Luminous efficacy	90 lm/W	Total power	6.3 W
CCT	2700 K		
CRI	90		

Mounting mode

Ceiling recessed, Wall recessed

Shape and measurements

Length: 5.12 in
Width: 3.82 in
Height: 1.57 in

Adjustability

Fixed

Electric

System power: 6.3 W

Protection

IP: 20
