VOLGA - CV
7430-N-2-374-91
UNILAMP

IP 68 IK 09

VOLGA, the new series of robust marine grade stainless steel underwater spotlight and in-ground uplighter. It utilizes high power LED in 2700K, 3000K or 4000K with high quality optical lenses offering narrow, medium, wide as well as elliptical light distribution. VOLGA is a perfect choice to illuminate swimming pools, decorative pools and fountains. To avoid installation issues and add another level of safety, VOLGA is pre-wired and is fitted with an anti condensation device. It must be operated in a submersible state at all time to protect an over-heating of the luminaire body. The marine grade 316 stainless steel body guarantees corrosion free appearance through out the life time. We highly recommend that the luminaire lay out should be considered during specifying and planning processes. Installation work must be carried out under national safety regulations. Spec • Designed, Manufactured and Tested according to IEC 60598. • Marine grade 316 stainless steel body and screws. • GFR polymer recess housing. • Safety glass cover. • Post-cured silicone gasket. • High quality LED module. • Remote driver – constant current or constant voltage (available separately). • Pre-wired cable from the factory. • Installation must be carried out according to the enclosed product manual. • To avoid over-heating, this luminaire must be used under water only.

Light output 1

1 x LED

Nominal lamp power	5.8 W	LOR	88%
Lamp flux	720 lm	Total flux	632 lm
Luminous efficacy	124 lm/W	Total power	5.8 W
CCT	4000 K		
CRI	80		

Mounting mode

Standing / Bollard, Floor mounted

Shape and measurements

Length: 0.76 in
Width: 1.97 in
Height: 1.97 in

Adjustability

Free

Electric

System power: 5.8 W
Appliance Class: III

Protection

IP: 68
IK: 09
