Revo 48V spots for Micro48 track are available in two sizes and numerous rotosymmetrical optical variants. Dedicated to advanced lighting design, the new Revo-Dark optical systems are particularly suitable for settings with high visual comfort. Equipped with highly efficient 'cross' and asymmetrical rotosymmetrical optics, they are particularly suitable for museum applications and projects with complex lighting requirements. The Spot Revo series boasts a pronounced performance-to-size ratio, a wealth of accessory additions and a wide range of finishes, but above all stands out for its precision, cleanliness and uniformity of projection.
