SG ARMATUREN

Very attractive wall luminaire for outdoor mounting. Comes only as a downlight with good light scattering via the efficient LED module, and a version that also has a small slit as an uplight, which makes high walls look nice. Both variants available with or without two 230 V power points concealed behind two tip-up lids with automatic closure. If you choose the version with connectors, there is a separate terminal strip for the connections. Easy mounting and option of control via integrated dimming relay makes Spike the modern choice for wall lighting. Made of powder-coated aluminium with a 10-year corrosion warranty.
