PISTA TRACK 48V LED 2700K LINEAR (555MM) GI WHITESTRUC
13412009
MODULAR

The next big thing in miniaturization Pista is the ultimate in modern aesthetics that introduces thinner slimmer magnetic track rails, ever smaller light fixtures and ultra-thin cables. But Pista isn't just about miniaturization, it's also about personalization. Creating unique configurations. The designer can play with different modules on single or multiple track rails in different lengths and colours. The geometrical possibilities really are endless. Even after installation the magnetic track rails mean you can change the lighting configuration. Two LED linear modules, two entirely different effects. The first, beautifully functional with powerful lumen packages (1000 lm/m). The second, Night Light is pure design, for more ambient and intimate lighting.
