PROLIGHTS

The new PC lenses from PROLIGHTS for the EclFresnel CT+ series are distinguished by their ability to optimize light intensity management and focus, ensuring uniform and well-directed illumination. These lenses allow for easy conversion of the EclFresnel CT+ S projectors from Fresnel to PC lens configurations, significantly broadening the range of applications—from theater productions to television studios—where precise control of light intensity and beam is essential. The kit is composed of the 150mm-6" PC lens and the front ring.
