IP 65

This is the recessed version of Kongya, an IP65 high-wattage downlight primarily used in wet and rainy areas with high ceilings, such as outdoor canopies and platform awnings. It achieves a high lumen efficacy of over 100lm/W through the use of branded, high-quality COB LEDs. The driver is specially designed with an intelligent real-time overheating protection function to ensure longevity. Furthermore, the die-cast aluminum housing enables efficient heat dissipation for an extended LED lifespan.
