GRAVITON ROUND IN-GROUND UPLIGHTER
9091-5-3-905-91
UNILAMP

GRAVITON is designed for all kind of uplight illumination tasks where high level of illumination is needed. It is able to withstand loads up to 1000KG. It is supplied with a post-cured silicone gasket and pre-wired cable with anti-condensation kit. GRAVITON is available with COB LED light source with choices of beam and color temperature. It can be used to illuminate plants, flagpoles, columns, building facades and other architectural works. We highly recommend that the luminaire lay out should be considered during specifying and planning processes.
