Developed and manufactured in Finland, Vario P is a suspension-mounted aluminium profile luminaire. The material used in the body is 100% recycled aluminum. Thanks to the variety of housing lengths and corner pieces, you can create a customised lighting solution that meets your needs. Typical applications include offices, lobbies, educational institutions and indoor corridors. With this luminaire, you can create a seamless line of light of up to 4500 mm. The DO series models are an excellent choice for all types of spaces where low glare levels and precisely controlled light distribution are required. The DO models are designed with user comfort in mind, ensuring that light is distributed evenly and discreetly onto the illuminated area. The 100% Finnish Vario P luminaires are designed and manufactured at Airam's factory in Lahti.
