ARKOSLIGHT

IP 65

With the aim of offering new creative tools to the lighting designer, the Slim collection arrives outdoors as an exceptional floor washer. The work on the optics and its markedly thin and elongated body project a constant and homogeneous vertical light. In the middle of the night, Slim allows us to dream of daytime atmospheres where light finds no limits or conditions. A comfortable illumination that marks our transit and avoids the classic shadows between luminaires and the edges of the path, uniformly bathing the ground from its confluence with the perpendicular.
