SUTIL SEMIRECESSED
26011-XE12
NEXIA

IP 20

Sutil, spotlight for interiors with simple and minimalist lines, characterised by its compact design, efficiency and technicality. Available in a colour rendering index of over 97 and a new colour temperature: 3500K that makes it an ideal option for retail projects. In addition, it permits customising its front ring in gold and copper finishes and the incorporation of sculptural or cut-out lenses for greater light control. Its surface-mounted version allows point-to-point installation of the projector without the need for a rail, concealing the driver inside.
