The design of the transparent antistatic polycarbonate diffuser is embellished with vertical internal slits, which, as well as giving it greater aesthetic value, also allow a better light diffusion. The diffuser is covered by red silkscreened polypropylene sheet or by parchment paper. Adjustable diffuser using a special clip made of a thermoformed material. Grey painted metal structure, base in zamac. Available in incandescent or fluorescent version. Direct and diffused light emission. Colours: grey/red or grey/natural.
