KANLUX

IP 65

KANLUX AQILO represents our first surface-mounted luminaire with an IP65 rating. It is characterised by simple design and available in three colours: white, black and graphite. The high tightness is intended for rooms where lamps are exposed to increased humidity and the risk of flooding with water, e.g. bathrooms and kitchens, as well as external areas of the house, such as terraces, balconies or covered entrances. The AQILO E14 IP65 and AQILO E27 IP65 models use a reflector to direct the light from the light sources downwards rather than onto the interior surface of the luminaire. As a result, luminaires can be fitted with lower wattage light sources and avoid lighting the room too dimly.

Light output 1

1 x LED

Nominal lamp power	10 W	LOR	59%
Lamp flux	1520 lm	ULOR	4%
Luminous efficacy	152 lm/W	Total flux	904 lm
CCT	3000 K	Total power	10 W
CRI	80
