ARKOSLIGHT

Hubble is a recess-mounted LED with cardan joint type pivot, offering extremely outstanding lumen packages for spaces that require a large amount of light and spotlight type lighting. The capacity of Hubble to be directed without standing out from the ceiling, and its small size related to its lumens, help prevent the luminaire from generating an invasive presence in the area. Indicated for lighting from high ceilings and for retail, it has options to adjust the intensity of its high lumen flux.
