ARKOSLIGHT

IP 20

Tray is conceived as an offering to light: a subtle suspended tray that embraces and delicately projects it. This precise exercise in proportions balances vertical and horizontal planes, resulting in a timeless icon. Its sculptural yet light presence floats naturally within domestic and contract spaces. Designed by Víctor Carrasco, Tray stands out for its refined geometry and serene character, becoming a focal point without being intrusive. Particularly suited to lounge areas or singular spaces, it combines a concentrated light beam with indirect lighting.
