URAIL LED RAIL SPOT PANE 680LM 7,4W 4000K 230V SIGNAL WHITE
94894
PAULMANN

The neutral white URail Spot Pane in signal white has a special faceted lens. This makes it particularly efficient, as it directs a large proportion of the light generated on the LED chip forwards out of the spot. Together with the corresponding URail components, this creates a completely customised lighting system with a total output of up to 1000W.
